From the School Board Chair

Welcome to our first School Board Newsletter. It has been an objective of the Board to communicate more directly with the school community. We plan to release a newsletter each term to update you on the work of the Board and relevant developments or projects within the school.

Leanne Antulov
Settlers School Board Chair

WHO WE ARE

An Independent Public School Board is comprised of the School Principal and staff, parental and community representatives. Representatives volunteer their time in attending meetings, functions and providing valuable input to make a difference to the educational experiences of our students. In coming newsletters we will feature profiles of members that will include their professional background and interest in the Settlers Primary School community.

WHAT WE DO

The Board is charged with governance of the school within the Department of Education’s rules, regulations and guidelines. It is responsible for review and endorsement of policies and procedures, review of financial information and strives to make Settlers Primary School a safe, happy and successful environment for students, staff and community. The Board is not responsible for operational management of the school, including administration and human resource management. Board members welcome contact and input from everyone in our school community, but are not able to assist in matters of an operational nature (these queries should be directed to the school’s administrative team).

LAST MEETING

Among various items discussed at our last meeting, a parental representative highlighted the need to fine-tune our Advertising/Sponsorship policy to better inform applicants and the wider community of the School’s position on approval of applications. The policy can be found on the schools website at: http://settlers.wa.edu.au/index.php?page=advertising-and-sponsorship
