

How Our Online Canteen works

The Process:

Our Online Canteen is an online ordering system that is a fast and intuitive new way to order recess and lunch. Orders can be placed simply in advance, prices are automatically calculated for each option. The orders are sent directly to the canteen and paper bags are printed, saving valuable time for your canteen staff and volunteers.

1. Student / Parent places order online

This can become a family activity making family time more important by teaching children a valuable life skill. i.e. Budgeting and Nutritional food values.

2. Order received in canteen

When the order is received, the canteen is able to view / print a list of all orders required for that day.

3. Order is printed on a paper bag or as a meal voucher

Meal orders can be printed directly on the paper bags. Some additional details like Teachers Name / Room / Tutor / Food Allergies etc can be printed on the bags. An alternate process is for canteens or parents to print meal vouchers for any orders placed online.
